

Fang Xi Lin

Data Scientist | Ph.D. Physics

About me

I am a quick learner with a strong analytical eye for problem solving. My communication skills are shown by years of student leadership and teaching experience. Since I earned my Ph.D., I have been working passionately in the field of data science at different startups.

Soft Skills and Strengths

Creativity Curiosity Self Confidence

Autonomy Adaptability Eye for Details

Creative Problem Solving Working Together

Learning Leadership Good Communication

Good Listener Patience

WORK EXPERIENCE

Apr 2023 –
Ongoing

Chief Data Scientist
Fanstories

📍 Toronto, Canada

Extracted, cleaned, and labeled user chat data from over 1M monthly users. Produced GPT-powered personalized content recommender R&D report assessing risk and feasibility. Developed, documented, and optimized recommender. Implemented SQL database for recommender

Aug 2022 –
Mar 2023

Data Scientist
Blossom.team

📍 Toronto, Canada

Developed natural language processing (NLP) sentiment analysis model of coaching session transcripts. Developed and deployed API using FastAPI. Analyzed 2+ years of coaching session transcripts for summarization and user progress in different coaching topics. Implemented MongoDB data schema for data storage. Developed AI Coach chatbot, providing affordable executive coaching to 10,000+ users.

Jan 2017 –
Feb 2023

Researcher in Astrophysics
University of Toronto

📍 Toronto, Canada

Canadian Institute for Theoretical Physics

Analyzed TB-sized data. Developed custom Python code for simulating and modeling time series data. Co-developed 'plind.py', a public python package for a novel method for numerical integration. Published six research papers, including three as main authors.

EDUCATION

2016 – 2023

Ph.D. Physics
University of Toronto

📍 Toronto, Canada

Department of Physics

Performed research in theoretical astrophysics (see prev. section). Delivered seminars and worked on ML projects as part of the Humans Learning Machine Learning group.

2015 – 2016

MASt Applied Mathematics
Cambridge University

📍 Cambridge, UK

Department of Applied Mathematics and Theoretical Physics

2011 – 2014

B.Sc. Hon. Math & Physics
McGill University

📍 Montreal, Canada

Department of Physics

TECHNICAL PROFICIENCIES

**Programming
& databases**

Python, C, C++, R, Mathematica, MATLAB, git, FastAPI, CSS, php, bash, LaTeX, MongoDB, SQL, Amazon AWS, Docker

**Machine
Learning & AI**

Pytorch, Tensorflow, Keras, prompt engineering, large language models (LLMs), Langchain, HuggingFace, spaCy, nltk

**Mathematics
& Statistics**

Linear algebra, quantifying uncertainty, exploratory data analysis, predictive modeling, multivariate calculus

Data Analysis

Pandas, Jupyter, numpy, scipy, scikit-learn, matplotlib

CERTIFICATES

• Data Science (*SciNet Consortium, 2021*)

• Ontario Summer School Central 2019 (*SciNet Consortium, 2019*)

• Scientific Computing (*SciNet Consortium, 2017*)
